

At our school we have a range of rewards in place to motivate the children during their learning. Rewards are designed to recognise the efforts the children are putting in and to celebrate achievement.

The Ferrars Academy Rewards system

★ Superstar Learners ★

When your child completes a piece of excellent work he/she will be awarded with a gold star sticker. Your child will then place this sticker onto a wall chart, which will be displayed in his/her classroom. We will recognise not only recorded work but also during practical lessons, such as drama, music, PE and art.

Once your child has collected 6 gold stars he/she will be rewarded with a 10 minute treat, which can be chosen from a selection. This may consist of extra playtime, a visit to the ICT suite or 'iPad time'! Once your child reaches 12 stars he/she may choose another treat.

Upon completion of the chart (18 stars) your child will be rewarded with his/her 10 minute treat. In addition to this he/she will be allowed to choose a book as a prize. A letter will also be sent home to inform you about this fantastic achievement.

Star Manners

We expect pupils to behave well during their lunchtime. We would hope to see them saying please and thank you to the kitchen staff and each other. They will be required to sit sensibly at the dinner table and use a knife and fork. We expect them to be courteous towards adults and children as they walk around school.

Children are rewarded by the mid-day supervisors if they have shown good manners at lunchtime. Their name will be called out at the end of lunch so their class can give them a clap and they can place a star, with their name on, on the classroom sign.

ABC Spellings ABC

To acknowledge the effort that your child puts into learning his/her spellings every week, some raisins will be awarded as a small prize. Children who get all of their spellings correct every week during the half term will be invited to have 'Tea and Toast' with Miss Green. Keep practising those spellings!

123 Mental Maths Stars 123

Our latest rewards system we have in place is to help develop your child's mental maths skills. If your child is ready, they can be tested on their mental maths, such as knowing their number bonds to 10, multiples of 5 etc. If they are confident and can answer a range of questions, they will be awarded with a sticker for their class chart and a certificate to take home. Keep practising on mental maths!

Our Values

The values we focus on throughout the school year are: co-operation, confidence, friendship, determination, courage and independence. Ask your child which value they will following this half term. If a child is seen showing signs of the term's value they be asked to put a ball in the year group pot placed in the hall. The year group at the end of the half term with the most balls wins a certificate.
