

Music

At Ferrars Academy we aim to provide children with high quality music education so that we can engage and inspire children to develop a love of music and their talent as musicians. This will enable them to be self confident and increase their creativity and sense of achievement.

We employ a specialist music teacher to teach music so that the children are provided with the best opportunity to develop their knowledge and skills in music. They are taught how to play a range of tuned and untuned percussion instruments. Children will listen to a range of high quality music to review and evaluate them. Children are encouraged to explore and understand how music is created. This will enable them to create and compose music on their own and with their peers. Children are taught to sing songs by using their voices creatively and expressively.

Children and staff in our school take pride in our various performances where children get to show their creativity by singing and dancing. Every year children

have the opportunity to sing and perform during our Christmas play, harvest assembly, Easter assembly and Choir performances. They enjoy visiting the local church and take part in the Christingle service. We organise a range of after school instrument club and Choir club to enhance their skills in music. Children in our school are very lucky to be able to visit a local theatre, to watch a Christmas performance, every year.
