

## English

In English, we follow a teaching scheme called Power of Reading. This scheme uses specially selected high-quality children's literature together with teaching sequences that have been created by the Centre for Literacy in Primary Education (CLPE). These lessons are adapted by the teachers at The Ferrars Academy to ensure that lessons are fun, engaging and challenging. Each term, the children focus on one book from which all English lessons are based around. Activities include reading, writing, drama and speaking and listening when reading a range of genres including fiction, non-fiction and poetry. They are encouraged to spend time appreciating texts and then discussing their views before embarking on written work.

Our children in the Foundation stage experience their English through a formally taught lesson followed by play based activities.

World Book Days, Book Weeks, theatre productions, Storytellers and many more events enrich our children's understanding and enthusiasm for literature.
