Computing

Computing Opportunities at The Ferrars Academy

- Weekly timetabled lessons
- Cross curricular links in other lessons
- Use of computers, ipads, floor robots, talking postcards and microphones to support and enhance learning opportunities
- Digital leaders meet weekly to work on specific projects
- Workshops
- Parent meetings to promote online safety

Our Computing Intent

Our computing curriculum equips children with the skills, knowledge and understanding to thrive in a rapidly evolving digital world.

- Ensure children have opportunities to develop their digital literacy
- To use computing in all curriculum areas where appropriate and for outdoor learning
- To embed computing vocabulary as part or everyday language
- Foster computational thinking
- Promote programming and coding skills
- Encourage safe and responsible use of technology

Pupil Voice

"I love coding and finding my way around the maze's"
(Akira, Year 2)

"I like doing the art competition on the computer. It's really fun."
(Joshua, Year 1)
