Science

Science Opportunities at The Ferrars Academy

- Weekly Science lessons
- Science workshops
- Science week
- Themed days/weeks
- Eco Warriors meet weekly at lunch time
- Opportunities for parent involvement in themed days/weeks
- Half termly Science question in the newsletter to encourage parental engagement
- After school clubs

Our Science Intent

Through our Science lessons we aim to:

- Ensure all children are excited, engaged and enthusiastic about their Science learning.
- Encourage children to ask questions and investigate to find the answer.
- Provide opportunities for the children to test and explore their own ideas and theories.
- Develop and introduce new vocabulary.
- Provide opportunities for children to investigate in different ways, both indoors and outdoors, and use a variety of equipment.
- Encourage children to identify ways in which they use science every day and to understand the impact science has on the world around us.

Pupil Voice

"Everyone is a scientist because we use science everyday!"

(Denis, Year 2)

"Science is about chemical reactions and finding out things you didn't know before".

(Aisha, Year 1)
